

Upstox App – User Reviews

#	Review
1	Only install the app if you want to lose your money and wonder where it goes. They have the highest charges among other brokers and unlimited hidden charges. They change brokerages without informing you. I got stuck after selling my stocks and it's been 3 days and I'm not able to withdraw it. And the worst part is customer service — they had customer service only for the sake of it. Please don't use this app, don't waste your money.
2	Worst app ever. They charge for everything: buying, selling, and even withdrawing your own money. They deduct funds during withdrawal but then come back months later for more 'hidden' charges, even if you haven't traded at all! My account balance keeps dropping for transactions made 3 months ago. It's a total money trap. Customer support is useless — no matter the issue, they just say 'thanks for your patience' while they drain your funds. Stay away!
3	Best interface and lots of data when compared to the competition but there are some issues. 1. Chart and price movement will hang most of the time — I need to exit and re-enter the app to get it to work. 2. For intraday trading and especially Options trading, I don't recommend this app because of the number of steps it takes to enter into or exit a position.
4	I would like to suggest adding a feature in the Upstox app where users can see when a particular share was purchased and at what price. When the user taps on a stock, its details should include the transaction history showing the last purchase date and the price at which the share was bought.
5	Used this for a while, and honestly it worked well until I noticed the charges. Brokerage charges, hidden fees, steep DP charges, Annual Maintenance fees, fund withdrawal charges — it adds up quickly. The app was great a few years back, but many of these charges seem to have been added recently. Not worth it anymore.
6	After adding money to buy stocks, some balance remained in my account. After a few days, that remaining amount disappeared. I'm not sure how it was deducted or what the reason was. Compared to other stock apps, this is a very poor experience.
7	Third class app experience. Charges are deducted silently even when the account is inactive. Balances keep changing, wallet shows negative even after payment. Closing account is unnecessarily complicated. Waste of time and money. Avoid this app. I have already checked the ledger multiple times. The ledger shows no outstanding balance, but the wallet and account closure page still show a negative balance. This is clearly a system sync issue from your side.
8	It is the worst app I've ever used. Selling stocks is very difficult as OTPs never arrive on time. I tried to sell a stock since three days and finally exited today with a 7% loss. The TPIN process is very complex. Other apps allow one-click selling. They also activated the 'Plus' service without my consent and charged extra. If you want peace of mind, avoid this app.
9	The level of customer support is not satisfactory. In case of any problem, they fail to respond. My issue has been unresolved for the past few days. We reached out to customer support but they did not provide the necessary information. Is the worst app among all investing apps.
10	Is there any developer in your company? For the past 1 month I am facing issues in FnO trading. In GTT order, if the market hits your target price, the sell order gets triggered but it will not get executed. As a result we end up in loss. You guys first hire some good technical team and then come to trading. Due to this glitch, many of my trades ended in losses. Rather than spending on ads, first spend on improving the app.
11	I have been a customer of Upstox since the time of its launch. The older app was much simpler in UI and order placements were very easy. Somehow got adjusted to the newer app, which I initially liked very much, but now the developers have just killed it. Unnecessary frequent changes while placing orders and more steps required to place basket orders have just ruined it. I have just initiated fund transfers to other brokers now.

12	Hello Upstox team. Your quick scalper feature is great for placing orders quickly, but it has a major drawback: the lack of stop-loss and target price options. There's a significant need for stop-loss, target price, and auto trailing stop-loss features. It would be a great help if you could add these. Please also include this feature in the stock options section.
13	Very disappointed with your notifications. You keep sending unnecessary advisory pop-up alerts. However I never subscribed to any advisory service, yet my screen is constantly disturbed with unwanted recommendations. Just because it's 'free' doesn't mean you can force it on every user. At least provide an option to disable these advisory notifications. I only want important alerts like order execution and price alerts that I personally set.
14	There is no actual record of buy and sell. The next trading session is utter nonsense and why does the unrealised profit add up in the actual cash available when it is unrealised and hasn't been realised? Sometimes it doesn't even add up into cash available and there is no proof of where the money is lost even when it was in profit. This app is so untrusted when it comes to booking profit after 2-3 days of delivery trade.
15	I've been experiencing chart loading errors for the past 6-7 months, even after upgrading to a Plus membership. I've tried everything to get rid of this problem. I'm constantly having to force-close the app by clearing cache and data, making it difficult for me to view charts and trade.
16	After updating the app, I lost the chart settings which were saved. Now I have to again rework on setting the chart. This is not expected, and if we skip updating the app then it won't work properly. Also, if any stock is in ASM, then before buying we should get to know that it's under T-to-T trade and intraday is not possible. But here we get to know only after placing an intraday order and it gets cancelled. This is a basic feature which is missing.
17	I referred 2 of my friends through this app. Both clicked the link and opened the account successfully, but I didn't receive any referral. Customer support is saying they didn't click on the link. Fraud app for referral.
18	They charge for delivery while many other competitors don't charge, which is a major hurdle in selection. One suggestion: they have a YouTube channel which could demo what's new when any version is launched. Now version 2.29 launched but no video. After 2-3 years of use the app now looks stable and usability has improved, especially for the trader interface.
19	I would appreciate if you could implement the following features: 1) Enable the smart exit feature on the portfolio page specifically for overall profit with a stop loss. 2) The watchlist should display the percentage of growth either upside or downside from the time the stocks were added. 3) Add the facility to utilise the profit earned on the same day for the next trade instead of waiting for the realisation like other brokers.
20	I recently got a new phone number. While trying to create a new account on this app, I was able to see details of the previous person who had the phone number that I got. This is a serious and incredible security flaw. I was able to see PAN, birthdate and bank account details. I hope someone from Upstox sees this comment and contacts me. I have a screenshot to share. On Feb 9, I got 3 marketing calls but no one called to fix the issue.

Privacy Policy & Terms and Conditions

Company: RKSV Securities India Pvt. Ltd. / Upstox Securities Pvt. Ltd.

Website: upstox.com/terms-of-use-and-privacy-policy/

Last Updated / Sourced: April 2026 (Policy Last Updated: 22nd December 2025)

This document compiles the key privacy policy provisions and terms & conditions as publicly available from the official platform. It is intended for informational purposes. Always refer to the official website for the most current version.

PART I — PRIVACY POLICY

Overview & Identity

Upstox refers collectively to RKSV Securities India Private Limited (CIN: U74900DL2009PTC189166), Upstox Securities Private Limited (CIN: U65100DL2021PTC376860), and RKSV Commodities India Private Limited (CIN: U65190DL2012PTC236371), along with their affiliates, associated companies, and subsidiaries. This Privacy Statement outlines privacy practices regarding the collection and processing of personal information in line with applicable data privacy regulations. Last Updated: 22nd December 2025.

Information Collected

To create an account and access Upstox services, you are required to submit personal and financial information including: name, contact details, address, identity verification documents (Aadhaar and PAN), and bank account information. Upstox may also collect platform usage data, account activity, preferences, and transaction history to improve its services and offer relevant financial products.

Purpose of Data Use

Upstox uses your personal information to: provide and improve its platform and services; enforce terms and conditions; communicate policy updates; process service requests and respond to inquiries; notify users of important platform changes; ensure compliance with applicable laws and regulatory requirements; offer other Upstox and associate company products; and manage user relations. Upstox may analyse user preferences and account activities to identify potential areas of interest in its financial product suite.

Legal Basis for Processing

Upstox processes user Personal Information to: fulfil a contract (service provision); support legitimate interests (platform use and login generation); meet legal obligations under SEBI, PMLA, and other applicable regulations; and with user consent where required. For KYC purposes, Central KYC Registry (CKYC) data may be accessed; if unavailable, KYC details may be sourced from group, subsidiary, or associate companies.

Data Sharing

Upstox may share your information with: regulatory authorities (SEBI, NSE, BSE, depositories); credit bureaus; Partner REs (Regulated Entities) for loan and financial services; and service providers under contractual data protection obligations. Information may be redirected to Partner REs or credit bureaus for grievances that cannot be resolved independently.

Data Security

Upstox integrates Governance, Process, and Technology to protect your data. Security measures include administrative, physical, and technical controls. Upstox holds ISO 22301 (Business Continuity), ISO 27001 (Information Security), and ISO 27701 (Privacy Information Management) certifications. Sensitive data such as passwords and PINs are encrypted. Upstox employs robust 2-Factor Authentication (2FA) including PIN, OTP, Time-based OTP (TOTP), and biometric options.

User Rights & Grievances

Users can exercise rights including: access, correction, and erasure of personal data; withdrawal of consent for processing. To exercise rights or withdraw consent, email privacy@rksv.in from your registered email ID. Requests will be processed within 30 business days. Note: some data may be retained for legal purposes; withdrawal of

consent may affect service availability. Data Protection Officer / Grievance Officer contact: privacy@rksv.in.

Governing Law

This Privacy Policy is governed by the laws of India and is subject to the exclusive jurisdiction of the Courts of Mumbai. Upstox may update its data privacy practices and revise the policy as needed; the updated version will be posted on the Upstox website.

PART II — TERMS & CONDITIONS

Introduction & Acceptance

By browsing or using the Upstox platform (website or mobile application), you agree to comply with and be bound by these Terms and Conditions of Use, along with the Privacy Policy. These terms govern your relationship with Upstox. If you do not agree, you must not access or use the Platform or its services.

Eligibility & Account Activation

To be eligible for Upstox services, you must be an Indian citizen or resident, at least 18 years of age, with a valid and active mobile number and bank account, and possess the legal capacity to enter into binding contracts. You will be required to submit personal, financial, and KYC documents (including Aadhaar and PAN) to activate your account. Failure to provide accurate information may result in account suspension or service denial.

Permitted Use

You agree to use the Upstox Platform only for lawful purposes and in accordance with these Terms. You must not post, upload, or transmit content that is defamatory, obscene, pornographic, invasive of privacy, harassing, misleading, or that threatens national integrity or security. You must not upload software viruses or any code designed to disrupt, destroy, or limit any computer resource.

Anti-Money Laundering (AML)

Upstox has a strict AML policy aligned with SEBI guidelines and the Prevention of Money Laundering Act (PMLA). This includes thorough Customer Due Diligence (CDD), no cash transactions, a risk-based approach to customer categorisation, ongoing transaction monitoring, and reporting of suspicious transactions to the Financial Intelligence Unit - India (FIU-IND).

Intellectual Property

All content on the Upstox Platform, including but not limited to webinars, pre-recorded courses, written materials, design elements, and software, is the property of Upstox and is protected by applicable intellectual property laws. Reproduction is prohibited except as permitted by the copyright notice. Unauthorised use may result in termination of access and legal action.

Third-Party Links

The Upstox Platform may include links to third-party websites or applications for convenience. These links do not signify endorsement by Upstox. Upstox has no responsibility for the content of linked websites. You may not create a link to the Upstox website from another website without prior written consent from Upstox.

Account Suspension & Termination

Upstox reserves the right to discontinue or modify any aspect of the Platform and/or terminate these Terms and your use of the Platform, with or without cause, at any time. Access may be removed immediately if you use the Platform in contravention of these Terms. On termination, your information may be deleted at Upstox's discretion, subject to legal retention requirements.

Governing Law & Dispute Resolution

These Terms are governed by Indian law. By using the Platform, you irrevocably consent to the exclusive jurisdiction and venue of courts in Delhi, India, for any disputes arising out of or in relation to your access to and use of the Platform. In certain cases, Upstox may redirect grievances to Partner REs or credit bureaus.

Subscriptions & Fees

Subscription, webinar, or course fees for Upstox services (e.g., UpLearn) are non-refundable, non-transferable, and non-adjustable for any other costs. Upstox reserves the right to modify terms, fees, and conditions at any time. Users will be notified of significant changes; continued use signifies acceptance.
